WORK EXPERIENCE

Nutrition Care Pharmaceuticals

Dec. 2024 – Present

Motion Graphics Designer

Remote

- Produced 3 promotional videos and graphics for pharmaceutical products from scratch.
- Created individual briefs for each product based on product function, target audience and product messaging towards viewers.
- Created storyboards and animatics from briefs, allowing client to view and give feedback on a draft version of each video concept.
- Created styleframes from each storyboard, allowing client to see exploration of various visual styles and decide on final styles before video production.
- Animated 3 30-second videos for pharmaceutical products. Maintained efficient workflow using Adobe suite while working to measurable and realistic goals. Met WIP meeting deadlines with outstanding results.
- Communicated with client regularly, incorporating feedback through video development to ensure it met client expectations.

Peter MacCallum Cancer Centre

Aug. 2024 – Oct. 2024

Motion Graphics Designer

Hybrid

- Created storyboard and animatic from return brief, serving as basis from which the final video was designed. Considered visual legibility for audience and what could be achieved given project timeframe.
- Animated scenes for final video. Created engaging and understandable animation and maintain design and animation continuity with other team members.
- Set measurable and realistic goals weekly to ensure project progressed efficiently and met deadlines.
- Communicated with client regularly, incorporating feedback through video development to ensure it met client expectations.

EDUCATION

Swinburne University of Technology

Dec. 2024

Bachelor of Design, Motion Design

Bachelor of Media and Communications, Cinema & Screen Studies

Hawthorn, VIC

- Minored in Advertising.
- Received Grad X award for top design capstone group for work completed for Peter MacCallum Cancer Centre.
- Showcased motion graphics video as student submission at NodeFest 2024.
